

Nightlight

When this feature is turned on, the nightlight on the baby unit gives a soft glow for comfort and allows easy location in the dark.

To set the nightlight:

- Press  when the parent unit is not in use.
- Press  or  to scroll to **NIGHTLIGHT**, then press .
- If the current nightlight setting is **OFF**, the screen displays **ON?** If the current nightlght setting is **ON**, the screen displays **OFF?**.
- Press  to confirm your selection. The screen displays **SAVED**. You hear a confirmation tone.
-OR-
Press  to exit the menu. The current setting remains unchanged.

Vibration alert

You can turn on the vibration alert so that the parent unit vibrates when the baby unit detects sounds which light up four sound level indicators on the parent unit.

When the vibration alert of the parent unit is turned on,  displays. The vibration alert is preset to **OFF**.

- Press  when the parent unit is not in use.
- Press  or  to choose **VIBE ALERT**, then press .
- Press  or  to choose **ON** or **OFF**.
- Press  to confirm your selection. The screen displays **SAVED** and you hear a confirmation tone.

NOTES

- Each time you set the vibration alert to **ON**, the parent unit vibrates briefly after you press **SELECT**.
- The vibration alert setting on each parent unit is independent.

Night light

You can turn the night light on or off by pressing  manually on the baby unit.

When the night light is turned on, the parent unit displays .

Monitor the temperature

Your baby unit measures the surrounding temperature. If the detected temperature falls beyond a desired temperature range, the parent unit screen will display **LOW TEMP** or **HI TEMP**. You can change the settings for the temperature format and range, as well as turn the temperature alert on or off by the following steps.

Temperature format

You can choose to display the temperature in Celcius (°C) or Fahrenheit (°F).

- Press  when the parent unit is not in use.
- Press  or  to scroll to **TEMPERATURE**, then press .
- Press  or  to scroll to **FORMAT**, then press .
- Press  or  to choose **CELSIUS?** or **FAHRENHEIT?**, then press  to save.

Minimum temperature

- Press  when the parent unit is not in use.
- Press  or  to scroll to **TEMPERATURE**, then press .
- Press  again to choose **MINIMUM**.
- Press  or  to choose the desired minimum temperature (**11-20°C**), then press  to save.

Maximum temperature

- Press  when the parent unit is not in use.
- Press  or  to scroll to **TEMPERATURE**, then press .
- Press  or  to scroll to **MAXIMUM**, then press .
- Press  or  to choose the desired maximum temperature (**21-30°C**), then press  to save.

Temperature alert

- Press  when the parent unit is not in use.
- Press  or  to scroll to **TEMPERATURE**, then press .
- Press  or  to scroll to **ALERT ON/OFF**, then press .
- If the current temperature alert setting is **OFF**, the screen displays **ON?** If the current temperature alert setting is **ON**, the screen displays **OFF?**.
- Press  to confirm your selection. The screen displays **SAVED**. You hear a confirmation tone.
-OR-
Press  to exit the menu. The current setting remains unchanged.

ECO range

You can change the setting of the ECO range. The shorter the ECO range, the lower the radiation will be emitted, so as the operating range will be reduced.

To change the ECO range:

- Press  when the parent unit is not in use.
- Press  or  to scroll to **ECO range**, then press .
- Press  or  to scroll to **FULL RANGE, HALF RANGE, ONE ROOM, and DESK**.
- Press  to confirm your selection. The screen displays **SAVED**. You hear a confirmation tone.
-OR-
Press  to exit the menu. The current setting remains unchanged.

Extended ECO

You can turn on the extended ECO mode so that the radiation emitted will be lowered to the minimum, so as the operating range will be reduced to the minimum.

To turn on the Extended ECO:

- Press  when the parent unit is not in use.
- Press  or  to scroll to **Extended ECO**, then press .
- Press  to confirm turning on the Extended ECO. The screen displays **SAVED**. You hear a confirmation tone.
-OR-
Press  to exit the menu. The current setting remains unchanged.

Reset

You can restore all the adjustable settings back to their original factory settings.

To reset the baby monitor:

- Press  when the parent unit is not in use.
- Press  or  to scroll to **RESET**, then press .
- The screen displays **CONFIRM?** Press  to confirm. The screen displays **SAVED**. You hear a confirmation tone.
-OR-
Press  to exit the menu. The current setting remains unchanged.

Talk to the baby unit

You can broadcast messages from a parent unit to the baby unit and the other parent unit. If you have two parent units, you can use both of them at the same time to talk to the baby unit.

- Press and hold  on the side of the parent unit. The screen displays  when the voice connection to the baby unit is made. Speak towards the microphone on the parent unit. Your voice is broadcast to the baby unit and the other parent unit.
-  **NOTES**
 - When a parent unit is talking to the baby unit, it is also broadcast to the other parent unit. However, sounds from the baby unit cannot be transmitted to the parent units at the moment.
 - If speaker volume of the parent unit has been turned off before the talk, it will change to default volume level after the talk finished.

Find/page the parent unit

Use this feature to find misplaced parent units.

- Press  on the baby unit. All idle parent units ring and display **PAGING**.
- To end paging, press any key on the parent unit, or press  on the baby unit.

NOTES

- Paging rings all parent units even if the speaker volume of parent unit is set to **VOLUME OFF**.
- The baby unit cannot page any parent unit that is turned off, out of range or talking to the baby unit.

General product care

To keep this product working well and looking good, follow these guidelines:

- Avoid putting it near heating appliances and devices that generate electrical noise (for example, motors or fluorescent lamps).
- DO NOT expose it to direct sunlight or moisture.
- Avoid dropping the product or treating it roughly.
- Clean with a soft cloth.
- DO NOT immerse the parent unit and the baby unit in water and do not clean them under the tap.
- DO NOT use cleaning spray or liquid cleaners.

Storage

When you are not going to use the baby monitor for some time, remove the rechargeable battery from the parent unit. Store the parent unit, the baby unit and the adapters in a cool and dry place.

Frequently asked questions

Why does the baby monitor not respond normally?	Try the following (in the order listed) for common cure: 1. Disconnect the power to the baby unit and the parent unit. 2. Remove the batteries in the parent unit. Then, install the batteries again. 3. Wait a few minutes before connecting power back to the baby unit and the parent unit. 4. Turn on the baby unit and the parent unit. 5. Wait for the parent unit to synchronise with the baby unit. Allow up to one minute for this to take place.
Why doesn't the screen of the parent unit go on when I switch on the unit?	Perhaps the rechargeable battery of the parent unit is empty and the parent unit is not connected to the power. Insert the appliance plug into the parent unit and put the adapter in a wall socket.
Why doesn't the POWER light of the baby unit go on when I switch on the unit?	Perhaps the baby unit is not connected to the power. Connect the baby unit to the power.
Why does the baby monitor produce a high-pitched noise?	The units may be too close to each other. Make sure the parent unit and the baby unit are more than 2 metres (6.5 feet) away from each other.
Why does the parent unit react too quickly to other sounds?	The baby unit also detects other sounds than those of your baby. Adjust the sensitivity level to a lower level or adjust the speaker volume on the parent unit.
Why don't I hear a sound/Why can't I hear my baby cry?	The volume of the parent unit may have set too low. Press  to increase the volume level. You may have set a low sound sensitivity level. See Adjust the sound sensitivity of the baby unit to change the setting.

Important safety instructions

When using your equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

- Follow all warnings and instructions marked on the product.
- Adult setup is required.
- This product is intended as an aid. It is not a substitute for responsible and proper adult supervision and should not be used as such.
- This product is not intended for use as a medical monitor.
- Do not use this product near water. For example, do not use it next to a bath tub, wash bowl, kitchen sink, laundry tub or swimming pool, or in a wet basement or shower.
- CAUTION:** Use only the batteries indicated in this manual. There may be a risk of explosion if a wrong type of battery is used for the parent unit. Use only the supplied rechargeable battery or replacement battery pack (BT166342/ BT266342) for the parent unit. Do not dispose of batteries in a fire. They may explode.
- Use only the adapters included with this product. Incorrect adapter polarity or voltage can seriously damage the product.
Baby unit power adapter:
Output: 6V DC 450mA;
Parent unit power adapter:
Output: 6V DC 450mA.
- The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.
- For pluggable equipment, the socket-outlet shall be installed near the equipment and shall be easily accessible.
- Unplug this product from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.
- Unplug the power cords before replacing batteries.
- Do not cut off the power adapters to replace them with other plugs, as this causes a hazardous situation.
- Do not allow anything to rest on the power cords. Do not install this product where the

cords may be walked on or crimped.

- This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply in your home, consult your dealer or local power company.
- Do not overload wall outlets or use an extension cord.
- Do not place this product on an unstable table, shelf, stand or other unstable surfaces.
- This product should not be placed in any area where proper ventilation is not provided. Slots and openings in the back or bottom of this product are provided for ventilation. To protect them from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or over a radiator or heat register.
- Never push objects of any kind into this product through the slots because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product.
- To reduce the risk of electric shock, do not disassemble this product, but take it to an authorised service facility. Opening or removing parts of the product other than specified access doors may expose you to dangerous voltages or other risks. Incorrect reassembling can cause electric shock when the product is subsequently used.
- You should test the sound reception every time you turn on the units or move one of the components.
- Periodically examine all components for damage.
- Be aware of possible loss of privacy while using public airwaves. Conversations may be picked up by other nursery monitors, cordless phones, scanners, etc.
- Children should be supervised to ensure that they do not play with the product.
- The product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

PRODUCT WARRANTY

Thank you for choosing this quality product from VTech. We hope it will bring many hours of entertainment, imaginative play and learning.

- The product detailed above is covered by a one year warranty from the date of purchase, against any defects in materials or workmanship.
- The product may be returned to the place of purchase. Alternatively the product can be returned to VTech Electronics Europe plc (see address below), with proof of purchase, without proof of purchase no replacement will be provided.
- VTech Electronics Europe plc will examine the product and if it is found to be defective due to faulty materials or workmanship, will replace the product at their discretion.
- If the product covered by this warranty is damaged due to misuse, modification or unauthorised repair, or because of faulty batteries, battery discharge or incorrect electrical connections, then this warranty becomes void.
- This warranty is personal to the original purchaser and is not transferable.
- Breakages to the LCD screen are not covered by the warranty.
- Returns to VTech Electronics Europe plc should include a cheque or postal order for £1.50 towards the cost of return postage and packaging.
- Products returned to VTech Electronics Europe plc, should be addressed as follows and packed carefully to avoid damage in transit (Please do not include batteries or adaptor). Please include details of the fault together with your name and address.
- To keep an online record of your warranty, please register your product online at www.vtech.co.uk/warranty

VTech Electronics EU PLC, c/o XPO Logistics, Warehouse 350, Cat & Fiddle Lane, West Hallam, DE7 6HE

THIS WARRANTY IS OFFERED AS AN EXTRA BENEFIT AND DOES NOT AFFECT CONSUMERS STATUTORY RIGHTS

This warranty is valid for the UK and Eire only. For products purchased outside the UK and Eire, please contact your local distributor or place of purchase.

Technical specifications

Frequency control	Crystal controlled PLL synthesizer

Disposal of batteries and product

The crossed-out wheelee bin symbols on products and batteries, or on their respective packaging, indicates they must not be disposed of in domestic waste as they contain substances that can be damaging to the environment and human health.

The chemical symbols Hg, Cd or Pb, where marked, indicate that the battery contains more than the specified value of mercury (Hg), cadmium (Cd) or lead (Pb) set out in Battery Directive (2006/66/EC).

The solid bar indicates that the product was placed on the market after 13th August, 2005.

Help protect the environment by disposing of your product or batteries responsibly.

Declaration of Conformity

This product is intended for use within Europe.

This equipment complies with the essential requirements for the Radio Equipment and Telecommunications Terminal Equipment Directive 1999/5/EC.

VTech Telecommunications Ltd. hereby declares that this Digital Audio Baby Monitor BM2300 is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

The Declaration of Conformity for the BM4200 is available from <http://www.vtech.com/rtte-directive>.

Why does the parent unit beep?	If the parent unit is in mute and the sound alert feature is on, there is sound detected from the baby unit. The baby unit may be out of range. Move the parent unit closer to the baby unit (but not less than 6.5 feet). If the parent unit is powered by the provided battery, it may not have enough charge for the parent unit to perform normally. Charge the battery in the parent unit for up to 11 hours.
Why can't I establish a connection? Why is the connection lost every now and then? Why are there sound interruptions?	The baby unit may be out of range. Move the parent unit closer to the baby unit (but not less than 6.5 feet). Other electronic products may cause interference with your baby monitor. Try installing your baby monitor as far away from these electronic devices as possible.
